ELTON KARATA OTWORI

Full-Stack Development | Data Science | Information Technology

Eldoret, Kenya | +254 115 075 046 | eltonotwori44@gmail.com | github.com/Elton-7 | axislearning.co.ke

PROFESSIONAL PROFILE

BSc Informatics graduate from Moi University who designed, built and deployed **axislearning.co.ke**, a full-stack React, Node.js and PostgreSQL website for a Kenyan education provider. Brings IT operations experience from the Kenya Broadcasting Corporation (KBC) and a certified qualification in Data Science with Python. Skilled in web development, data analysis, databases and systems analysis, with clear communication and a commitment to continuous learning. Seeking a software, data or IT role.

WORK EXPERIENCE

Full-Stack Developer — Axis Learning *Jun 2026 – Present*

Eldoret, Kenya · axislearning.co.ke

- Designed and built the organisation's website end to end: React + TypeScript frontend (Vite, Tailwind CSS) and a Node.js/Express REST API backed by PostgreSQL.
- Built the enquiry and consultation-booking flow with server-side validation, rate limiting and automated email notifications to staff.
- Presented nine services across four delivery formats with a guided step-by-step enrolment journey for parents and guardians.
- Containerised the API with Docker and deployed the frontend and backend to Netlify and Render.

IT Intern — Kenya Broadcasting Corporation (KBC) *Sep 2024 – Dec 2024*

Nairobi, Kenya

- Gained practical exposure to IT operations within a national public broadcasting environment.
- Assisted technical staff with day-to-day system maintenance, troubleshooting and digital operations.
- Applied academic knowledge of data management, networking and IT support in a live professional setting.

PROJECTS

Retail Sales Analysis — Python, pandas, Matplotlib *github.com/Elton-7/retailsales-analysis*

- Cleaned and analysed a 2-year, ~7,700-row retail dataset; identified seasonal revenue trends, top-performing categories and regional performance through data visualisation.

Inventory & Stock Reporting Database — SQLite, SQL *github.com/Elton-7/Sql-inventory-project*

- Designed a 6-table relational schema for a multi-warehouse inventory system; wrote SQL queries for low-stock alerts, reorder recommendations and supplier performance tracking.

EDUCATION

Bachelor of Science in Informatics — Moi University, Eldoret *Sep 2021 – Jul 2025*

Relevant coursework: Database Systems, Software Engineering, Network Security, Data Analysis, Systems Analysis & Design.

KCSE — Tulwet Boys Secondary School *(Grade: B–)* *2017 – 2021*

CERTIFICATIONS

Certificate in Data Science with Python — *Sankhyana Consultancy Services Pvt. Ltd., India*

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, Python, SQL, HTML, CSS
- **Web development:** React, Next.js, Vite, Tailwind CSS, Node.js, Express, REST APIs, JWT authentication
- **Databases:** PostgreSQL, Sequelize ORM, SQLite, relational schema design
- **Data science:** Data cleaning & analysis, pandas, NumPy, Matplotlib, Jupyter Notebooks
- **DevOps & tools:** Git, GitHub, Docker, Netlify, Render, VS Code
- **Cybersecurity:** Secure browsing, password management, phishing identification & prevention
- **Productivity & design:** Microsoft Office, Google Workspace, Zoom, Microsoft Teams, Adobe Photoshop

CORE COMPETENCIES

- Clear communicator who engages professionally at all organisational levels; works well independently and in teams
- Analytical problem-solver with keen attention to detail, committed to data privacy and digital security standards
